### WORK EXPERIENCE

**Software Developer** | [Rackspace Technology](#) | San Antonio, Texas | React, JavaScript, AWS 11/2022 - Present

- Led front-end development of the ICE generative AI App, defining the tech stack (**React, TypeScript**), managing timelines, and delivering core features like chat functionality, API integrations, and mobile responsiveness.
- Made substantial contributions to Rackspace's cloud management **React** app, which provides a centralized view of the customer's resources for private cloud, public cloud and dedicated accounts.
- Extensively worked with **React Testing Library** and **Jest**. Also **API Gateway**, **Lambda** and **DynamoDB**.
- Lead Front End Developer for cutting-edge generative **AI chatbot** tailored for C-Suite executives.
- Developed a company-wide design system using **Storybook**, featuring customized reusable **React** components.
- Conducted comprehensive A/B tests via **Datadog** to quantitatively evaluate and then implement new UIs.

**Front End Developer** | [Trivie, Inc.](#) | Dallas, Texas | React Native, TypeScript, MobX, Jest, K6 07/2021 - 08/2022

- Trivie helps employees retain workforce training through **AI**, cognitive science techniques and **gamification**.
- Clients include Fortune 500 companies/organizations: GE, AARP, McDonald's, Subway and Anheuser-Busch.
- I implemented new features and cleared hundreds of bugs in our Trivie **React Native mobile** and **web app**.
- Built-out user **React Native** App and Dashboard (**React**), providing comprehensive stats on user performance.
- Responsible for all E2E testing via **Selenium**, load testing via **K6**, and used **Jest** for unit and integration tests.
- Directed and facilitated sprint planning, retros and stand-ups for our contractor software developers.

**Freelance Software Engineer** | [Portfolio](#) | [Github](#) | San Francisco, CA 11/2019 - 06/2021

- Built many freelance and passion projects: eLearning apps, a memorial site, and a full stack eCommerce store.
- **Technologies:** **React**, **React Native**, **Node**, Express, **FastAPI**, Gatsby, **Next.js**, **MongoDB**, **Postgres**, and **AWS**.
- Built **MERN stack** and **React Native** mobile apps using **React**, **Node**, **DynamoDB**, **Lambda** and **API Gateway**.
- [ESL MiniGames](#) - Educational app designed to keep students engaged and mentally active during the transition to remote learning. A self-directed passion project built with **JavaScript**, **HTML**, **CSS**, **Axios** and **Git**.
